To calculate FTE's, use the following example:

Days worked = 145  
Contract days = 185  
% of each day = 50

Formula:  
(145/185) x 0.5 = 0.39 FTE

Please provide explanation for significant changes in FTEs between Estimated Actuals and Adopted Budget.

Please provide explanation if Staffing Analysis data differ from data in the CECC Position Control System (if using Position Control System to develop district's budget):
